JOLIET PRISON SCENE REVOLT; MILITIA CALLED

Prisoners Resent Order Denying Visitors Other Than Relatives

SET FIRE TO BUILDINGS AND FIGHT FIREMEN

Soldiers Fire Shots Which Subdue Riotous Spirits of Criminals

[ASSOCIATED PRESS TELEGRAM]
Joliet, Ill., June 5.—Serious rioting among convicts at the state prison here broke out this morning. Five buildings were set on fire. Companies E and F of the First Illinois Infantry, now in Federal service and encamped near here, were called to assist the guards in quelling the disturbance.

The penitentiary is on the outskirts of the city. Three fire companies which responded to the alarm met opposition from the convicts, who used bricks and tools stolen from the implement house as weapons. There were some knives among them also.

The first work of the soldiers was to clear the convicts away from the blazing buildings so that the firemen could work. This was quickly accomplished. At 11:14, three hours after the trouble started, the convicts had been subdued, but the soldiers were making steady progress in herding them toward the cell rooms. The infantry men were instructed not to shoot unless to save their own lives.

The buildings fired were the rattle and chair factories, which are of considerable size, the chapel, oil house and lumber shop, which are smaller structures in the big enclosure.

There are about 1200 convicts and the situation soon got beyond the control of the 50 guards. A. L. Bowen, temporary warden, telegraphed to Governor Lowden for military assistance.

For some time there have been reports of lax discipline at the prison and conditions were the subject of a recent investigation by a legislative committee. Warden Zimmerman resigned some time ago voluntarily to accept another position in Chicago. His successor has not been appointed, and Mr. Bowen has been acting temporarily. Yesterday, in the interests of discipline he instructed that hereafter no visitors except relatives would be admitted to the grounds.

Anger at the order first made itself apparent at breakfast today. Dishes were hurled at the guards, tables overturned, and the convicts surged into the grounds, shouting and making threats. They grabbed what missiles and weapons they could, and obtained more from the implement house. They set fire to the rattle shop twice, the first blaze having proved abortive.

Other fires followed. Firemen from this city responded to an alarm.

BRITISH CRUISERS SINK DESTROYER GET 17 PRISONERS

[ASSOCIATED PRESS TELEGRAM]
London, June 5.—A German destroyer has been sunk and another damaged in a running fight between six German destroyers and Commander Tyrwhitt's squadron, the admiralty announces.

The text of the admiralty announcement reads: "The vice admiral at Dover reports that the enemy naval base and workshops at Ostend were heavily bombarded in the early hours this morning. A large number of rounds were fired with good results. The enemy shore batteries returned our fire but our bombardment forces suffered no damage."

"Commander Tyrwhitt also reports that early this morning a force of light cruisers and destroyers under his command sighted six German destroyers and engaged them at long range in a running fight. One of the enemy destroyers, the S-20 was sunk by our gunfire and another severely damaged."

"Seventeen survivors from the S-20 have been picked up and made prisoner. There were no casualties on our side."

The aerial attacks on German establishments in Belgium are being continued vigorously by the British. Further operations were reported officially today as follows: "Naval airplanes on Sunday night attacked the airbase at St. Denis Westm. near Ghent. Many bombs were dropped with good results. The enemy's seaplane base at Zeebrugge was attacked by our seaplanes at the same time and shipping in Bruges also was bombarded. All our machines returned safely."

REGISTRATION BUTTONS GIVEN LICKING CO. MEN

Red, white and blue celluloid buttons were given to Licking county men who registered today. 3500 buttons having been received. The registration is heavier than was expected so the supply of buttons may be exhausted before night. If the supply is short the demand another shipment will be ordered. To pay for these badges and to provide

400 Licking county soldiers and sailors with bronze identification badges this newspaper is raising a fund of \$400. Last night the fund passed the \$200 mark. It more than enough money to pay for the buttons and the metal badges, the surplus will go to the Red Cross. To date nearly 1000 people have given from 10 cents to \$5 to this fund. Names of those who subscribed today will be published tomorrow.

GERMAN PLANES BROUGHT DOWN IN LATEST RAID

[ASSOCIATED PRESS TELEGRAM]
London, June 5.—Official announcement is made that an airplane raid is now in progress over the Thames estuary.

One German airplane is reported to have been brought down. Bombs were dropped over Essex and Kent. The statement follows:

"An airplane raid is now in progress over the estuary of the River Thames. The enemy have dropped bombs over the adjoining district in Essex and Kent. No further details are yet at hand. Up to the present one hostile machine has been reported brought down."

The Thames estuary is about 25 miles west of London.

MONGOLIA AGAIN FIRES SHELLS AT GERMAN U-BOAT

[ASSOCIATED PRESS TELEGRAM]
London, June 5.—The American steamship Mongolia fired four shots on June 1 at a German submarine which discharged a torpedo at the liner. Neither the Mongolia nor the submarine was damaged.

AMERICAN FLEET IN SOUTH ATLANTIC GREETED BY BRAZIL

[ASSOCIATED PRESS TELEGRAM]
Rio Janeiro, June 5.—The chamber of deputies voted today on the motion of Deputy Marinho Lacerda to authorize the cabling of a message of congratulation to the Congress of the United States on the arrival of an American squadron.

Deputy Henrique Coelho Netto delivered an address of welcome to the American squadron. He proposed that as an unusual mark of honor to the free American people in their struggle in the defense of the right there be appointed a commission of 21 deputies to visit the squadron, and that commission include distinguished representatives of the military.

Deputy Souza Silva objected to this proposal, suggesting that the representations of the chamber be limited to its marine and war committees. It was decided to send the message of congratulations, leaving aside the nomination of a special commission.

NAVY DEPARTMENT IS SILENT.

[ASSOCIATED PRESS TELEGRAM]
Washington, June 5.—The foregoing dispatch from Rio is the first published information of the steps in the plan of relieving British and French cruisers in the waters of the western hemisphere with American warships. For the present the navy department withholds further information or comment upon it.

WALTON GETS APPOINTMENT.

[ASSOCIATED PRESS TELEGRAM]
Columbus, O., June 5.—Randolph W. Walton, a Progressive-Republican of Columbus, today was appointed by Governor Cox a member of the state civil service commission. The appointment will take effect June 15. Mr. Walton succeeds D. B. Campbell, resigned.

Political Situation In Austria-Hungary Fills German Editors With Gloom

[ASSOCIATED PRESS TELEGRAM]
New York, June 5.—All the familiar signs which herald a great offensive are reported from the British front in France, and everything points to the near approach of a resumption of fighting on a great scale in the western front. The thunder of the British guns increases day by day in volume, while trench raids and other feintings for position multiply in number.

The most interesting feature in the meager official reports is the repeated announcement of a tremendous artillery duel in progress around the little Belgian village of Wytschaete, about five miles north of Ypres. From this point as far south as the famous Vimy Ridge, 30 miles away, the guns are roaring night and day, apparently indicating that General Haig has chosen this wide sector for his next big blow. In this connection it is recalled that General Maurice, director general of military operations, predicted some weeks ago that the next British offensive would be on a vaster scale than any which preceded it.

Wytschaete marks the head of a short salient held by the Germans south of Ypres. This salient is roughly three miles deep and averages about the same extent in width. Its great importance lies in the fact that it is the only high land between the British and Lille. Once in the possession of the British their guns would command the broad plain between the plateau and Lille, a distance of about 10 miles.

The relative lull in the war theaters has had no counterpart in the field of politics where events are moving rapidly. The opening of the Austrian parliament has caused something akin to consternation in the German press and the pan-German organs especially are filled with gloomy predictions over the political situation in the dual monarchy. Their uneasiness is largely based on the fact that the German party is in a very marked minority in the Austrian chamber of deputies, while the fall of Count Tisza in Hungary has given renewed confidence to the Czech and other German elements.

In Russia the situation remains confused and obscured by all manner of sensational reports. Two events, however, have given fresh heart to well-wishers of the nearing arrival in Petrograd of the American commission, and the second is the appointment of General Brussloff as commander-in-chief of Russia's army. General Brussloff enjoys the reputation of being not only a brilliant field commander, but a strong and self-reliant man, and his appointment is taken as a fresh indication that Minister War Kerevsky's promise of a vigorous administration was not an idle boast.

The Prussian junkers are still putting forward extravagant programs of annexations and indemnities. They have apparently abandoned the idea of a separate peace with Russia and are now discussing the dismemberment of that country. Their boasts have been met with the passage by the French chamber of deputies of a resolution declaring that peace can only be based on the re-creation of Alsace-Lorraine to France and the evacuation and restoration of the regions invaded by Germany.

KAISER'S WIRELESS BOSS IN AMERICA TO PERFECT PLANS

[ASSOCIATED PRESS TELEGRAM]
New York, June 5.—The police announced today they had positive information that "the head of the German wireless system" came to this country, made plans regarding wireless outfits and other details through which information was to be conveyed to Berlin, and then departed probably for Mexico.

MOTHER IS FRANTIC AS SEARCH FOR KIDNAPED BABE PROVES UNAVAILING

Mrs. J. Holland Keet and her kidnaped baby.

The fruitlessness of the search for her fourteen-months-old baby has driven Mrs. J. H. Keet of Springfield, Mo., almost frantic. The child was kidnaped on Wednesday night of last week and every possible effort has been made to recover him. The father, who is a retired banker, has offered a big ransom to the kidnapers if they will return the baby. Their failure to do so leads to the fear that the child is dead.

NO OPPOSITION TO CONSCRIPTION DEVELOPS HERE; BOOTHS CLOSE AT 9

Newark's young men, those between the ages of 21 and 30 years, eligible for service under the selective conscription act, stepped forward today and entered their names on Uncle Sam's register, which before night will contain 10,000,000 names. Their act was attended by no patriotic demonstration of any nature. The ringing of bells and blowing of whistles which marked the advent of the registration hours in other cities, were absent here. The booths opened at 7 o'clock in most cases men were waiting for the chance to enter their names on the lists.

Soon after the opening hours, women representing various local patriotic organizations appeared for duty and during the day presented each man registered with the button purchased with the fund solicited by the Advocate. In many precincts fresh supplies of buttons were requisitioned because more men were registering than were counted upon.

According to word from the booths, there was no general claim for exemption. Eleven hour instructions issued by the war department held that applicants for registration need not answer the question "Do you claim exemption?" unless they desired.

As might be expected, there was some misunderstanding on the part of some registrars but these were quickly advised correctly by members of the board of elections who were on duty during the day ready to answer questions and straighten out all tangles due to the complicated system of enrollment adopted for this case.

Registrars also found that ages given many times did not correspond with the date of birth and as this is a very particular item of information on the registration cards, cross-examination was necessary to see that the two items tallied.

If there is any opposition in Newark to the plan of Uncle Sam to take a census of the young men of military age, it did not develop in the course of the day's work. There was no outspoken resistance, and if any man between 21 and 30 failed to establish his identity has not yet been established.

Some of the city's factories closed at noon to give their men a chance to register. In other cases, the men took a leave of absence long enough to go to the booths and enter their names on the cards.

Registrars on duty today volunteered for the service. There was no provision for the state or federal governments to compensate the men for their service. It was looked upon as a patriotic service which the registrars were expected to give to their country as a part of their "bit."

At the county jail, nine prisoners within the age limits were registered in accordance with the provisions of the act. At the city prison, Turnkey Robert Francis had less than a dozen men to register under the act.

Laggards who did not attend to the duty earlier in the day, have until 9 o'clock tonight to get their names on the register. Every man 21 years old and not 31 or over, be he deaf dumb or blind, sick or well, married or single, native or alien, whether he has a dozen dependents or none, whether he be crippled or strong, must register, under penalty of a year's imprisonment and liability to military service also.

At 1 o'clock this afternoon it was estimated that fully 75 per cent of those eligible had registered at the different registration places. In many places those registering exceeded the number of the list furnished the registrars by the clerk of the board of elections. Twenty-five had registered in Precinct B of the Second ward, before 9 o'clock this morning.

An Advocate representative visited a number of registration places, between 1 and 2 o'clock this afternoon and not a single case of trouble was reported by the registrars. In nearly every instance where foreigners registered they were accompanied by interpreters, although this was not always necessary as many of the young men speak fairly good English.

In Precinct D of the Second ward, next to Miller's meat market, South Second street, 34 had registered at 1 o'clock. Only 29 eligibles had been reported, taken from the registration list last fall.

In Precinct A of the Second ward, 40 had registered, two of whom were foreigners and five negroes. The most trouble was had with them as they did not know how to answer the questions correctly. Registrars Henry Gardner and Harry Ballinger had erected a flagpole in front of the booth from which floated a large American flag.

PAT BERRY LANDS STATE JOB; MILLER BACK AT OLD POST

[ASSOCIATED PRESS TELEGRAM]
Columbus, O., June 5.—Announcement will be made today of the appointment of John I. Miller, of Columbus, as state superintendent of public works, succeeded Frank R. Fauver. The change is effective tomorrow. Miller formerly was superintendent of the same department under previous administrations.

The appointment also of Patrick J. Berry, of Mt. Vernon, as assistant commissioner of the Blue Sky Bureau of the state bank department is to be announced late today. He will succeed W. H. Tomlinson of Dayton, whose appointment as state insurance superintendent was made known last night by Governor Cox.

Ten Million Young Americans Place Names On Roll of Honor and Are Ready To Crush Hohenzollern Autocracy and Militarism

ALL MUST REGISTER BEFORE BOOTHS CLOSE AT NINE O'CLOCK THIS EVENING

Registration Does Not Mean Draft—That is Second Step In Selection of Men Who Will Be Honored By Part In Great Conflict For the Freedom of All People—Selective Conscription Boards Will Weed Out Ineligibles After Names Are First Drawn—Department of Justice Prepared to Enforce Provisions of Law

America is stepping forward today to do her part in making the world safe for democracy.

In every city and town, in the most remote valley, hamlet and at the wildest mountain cross roads, ten million sons of liberty are inscribing their names on the honor roll of the ages, that the free governments for which their fathers died may not perish from the earth. White or black, married or single, sick or well, alien or native born—even enemy subjects of the Kaiser—all men between the ages of 21 and 31 are expected to present themselves today between 7:00 a. m. and 9:00 p. m. for registration. It does not matter that a man for any reason is unfit for army duty; that will be established later. It does not matter that he may claim and be entitled to exemption from army service—that will be attended to in another way. It does not matter that he is not a citizen of the United States. Every man between those ages is required to register today unless he already is in the military service, in some branch or other.

The war department's registration primer, readily shows this: It follows:

Who Must Register?—All male persons (citizens or aliens) born between the sixth day of June 1896 and the fifth day of June 1899, not yet fully organized force, military or naval, subject to be called, ordered or drafted into military or naval service of the United States—including all officers and enlisted men's reserve corps, national guard and national guard reserves recognized by a militia bureau, the navy, the marine corps, coast guard, naval militia, naval reserve force, marine corps reserve and national naval volunteers recognized by the navy department.

When?—Today between 7 a. m. and 9 p. m.

Where?—In your home precinct. How?—Go in person to the registration place of your home precinct, it is a simple matter. The clerk may deputize him to prepare your card.

Penalty for not registering—Liability to a year's imprisonment, then enforced registration.

Registration is not to be drafted. That is another step in the plan. Each man registers today, he will be numbered and at a later time the numbers will be chosen for service by lot. Not until then will any man know whether he has been drawn for the first increment of 650,000 men who probably will be called to the colors for training early in September before they go to the battle fields of northern France or the trenches of outraged Belgium.

After the men have been drafted, the question of exemption will come up to be decided by fair and impartial boards. They will determine whether physical or mental defects debar a man from service; or whether the dependence of others upon him, or the country's need of him in civil life make it necessary to exempt him from service at the front.

In the meantime, today's duty is registration. The long arm of the federal law is reaching out to seize those who seek to evade this first duty to which all have been called and those who by counsel or influence seek to prevail upon others to shirk it.

The department of justice, for the time being, has put aside all other work; the great machinery of the great federal government has been concentrated today upon enforcement of the law. Citizens have been called upon as individuals and village committees to report any violations of the law; and while the machinery of the free national elections is being utilized to accomplish the registration, the entire fabric of the civil government is being employed to see that it is done.

Of the approximately ten million men who are registering today the census bureau estimates that about 1,800,000 are married and about 5,000,000 are single. By estimate they are distributed through the walks of life approximately in this number:

Agriculture, forestry and animal husbandry, 2,864,000.
Manufacturing and mechanical industry, 3,036,000.
No gainful occupations, 500,500.
Transportation, 967,000.
Trade, 1,064,000.

Public service, 144,000.
Domestic and personal service, 441,000.
Professional service, 325,000.
Clerical occupations, 374,000.
Extraction of minerals, 364,000.
These figures total less than 10,000,000. The remainder are scattered through occupations not here classified which are many and varied.

The provisional marshal general's office estimates the number of men subject to registration today at 10,264,896; 498,896 in Ohio.

While an approximate report of the results of the registration may be published in the morning newspapers tomorrow it will be several days before a complete return can be assembled.

The war department has instructed precinct and county officials not to transmit any incomplete returns to the governors of their states. It will therefore be 9 o'clock tonight before the first precinct return in the eastern states is complete, and it will be midnight, Washington time, before the precincts are closed on the Pacific coast. Then, more time must elapse while these returns are being transmitted to the state capitals. The governors have been instructed not to transmit any partial returns of their states to Washington but to hold all returns for a complete report. That will entail another delay. The complete returns for any county will be available for local public knowledge; the complete returns will be available for the federal government.

GERMAN AGENTS SEND LETTERS BY NEUTRAL SAILORS

[ASSOCIATED PRESS TELEGRAM]
New York, June 5.—The arraignment today of Herman Frencke, an electrical engineer who was arrested last night charged with conspiracy in violating the postal laws, was expected to develop additional evidence in an alleged "underground" mail system to Germany. Just what connection, if any, Frencke had with the three men arrested Sunday was not divulged. From guarded remarks made by federal authorities it is believed that other and more important arrests are to be made soon.

Besides Frencke the men under arrest are Harry F. Periss, Irving Bonaparte and Axel B. Melcher, the last named being a saloonkeeper in Brooklyn. Periss and Bonaparte are employees of a German electrical company.

The government alleges that the three men sent mail matter to and from Germany by having it carried by members of the crews of Norwegian ships. Documents found in offices occupied by Periss are said to show shipments of electrical parts on Ward Line ships and other vessels during the past two months.

Whether any wireless parts reached Mexican ports is not known and it was intimated that not until this fact was definitely established could it be ascertained if a mere direct means of communication with Germany was established than the mail system.

but were opposed by the convicts who threw volleys of bricks at them. Chief Royce was knocked down, but was rescued by his men. The battle was proceeding briskly when the soldiers arrived. They were ordered to hold their fire, and although outnumbered, nine to one, they began an orderly attack with bayonets and clubbed rifles. In the course of the fighting, Peter Waters, a guard, was injured, and three convicts were wounded by bayonet thrusts.

Captain H. C. Ridgeway of C company, was guarding "solitary" when he was attacked by a big negro convict. There was a terrific encounter for a moment until the soldier

knocked his assailant unconscious with a blow from his pistol.

The soldiers gradually forced the scattered groups of convicts to a corner of the yard. The work was hampered by darkness caused by the smoke of the burning buildings. Acting on the order of their commanders, the soldiers fired several volleys aiming so as not to kill. The shots had an immediate effect on the spirits of the convicts.

At noon it was declared that the fires in three of the five buildings were under control. Captain Ridgeway ordered his men to keep the convicts in a corner of the yard remote from the fires.

The injured were taken to the prison hospital for treatment. Soldiers and prison guards were posted on the walls as soon as the hand-to-hand struggle ceased to guard against escapes. Officials said only a count of the prisoners would show with certainty whether any convicts had escaped.

War is hell, and the roar of battle is the devil's symphony.

turns for a state will be available for public knowledge first at a state capital and then in Washington.

For the reason that partial returns will be misleading, and possibly do grave injustice to some patriotic communities war department officials have appealed to all newspapers to publish nothing but complete returns for comparison with the official estimates of what the registration for given localities should be.

As the day passes, all employees of labor are expected to make provision to permit men to register if their hours are such that they could not do so in any other way. The individual, however, is responsible for his own registration no matter what its personal inconvenience or cost. Any interference with his registration will be punished by law. No man of the registration age may leave the United States before 9 o'clock tonight. When the registration precincts close tonight officials believe practically every man will have done his duty, and that it will be shown that the anti-registration propaganda which has appeared during the last few days—dangerous though it may be—is not so widespread as it has been supposed and that it has had a comparatively insignificant effect upon the American people, when compared to the magnitude of the duty it has sought to attack.

It is pointed out that peace time elections are not without disorders here and there. It would not be strange if the registration of 10,000,000 men for army duty in a nation composed of the blood of all other nations should be accompanied by some demonstrations of disapproval. All officials are confident that these will be sporadic and not representative and of no widespread importance.

RESISTANCE IS SPORADIC.

(ASSOCIATED PRESS TELEGRAM)
Washington, June 5.—Registration proceeded generally without disturbance throughout the country and the few arrests reported were construed by officials not as evidence of any effective organized resistance but rather as a sporadic affairs to be expected in an undertaking of such magnitude and importance.

The weather generally was fair and incoming reports indicated a healthy registration during the early hours and continuing as the day passed on.

The extent of evasion will not be known until complete returns are assembled but officials are confident it will be negligible.

Department of Justice officials said today that, at a low estimate, an army of 100,000 federal, state and local employees are enforcing the registration law throughout the country.

The entire corps of special agents of the department are concentrating their energies on the work and have special instructions to immediately arrest any one attempting to interfere with registration or seeking to persuade others to evade registration. Offenders, under these instructions, will be taken promptly before federal commissioners or other officials for hearing.

The government has instructed these agents to call in the assistance, if necessary, of any federal, state or local authorities, wherever trouble may develop, and the entire government machinery is at their disposal for enforcement of the law.

Besides the special agents, police departments of all the cities, the American Protective League, with organizations in 300 cities; all postmasters and a host of other government employees watched the situation closely. In some states national guardsmen were in readiness for calling out in event of trouble.

500,000 ENROLL IN OHIO.

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., June 5.—Early this afternoon long distance telephone reports to state registration headquarters brought highly favorable reports from the larger cities of the state concerning registration.

At request of Governor Cox, the mayors of a large number of cities were asked by telephone to tell what progress is being made and of any difficulties that may have been encountered. Reports from Cincinnati were highly optimistic, the statement being that registration would be finished earlier than expected and that there had been no semblance of trouble of any nature. Similar reports came from Dayton, Toledo, Cleveland, Marietta, Youngstown and other points.

Reports of trouble at St. Marys were found to be false, the chief of police there telling state registration headquarters that everything was progressing splendidly.

Lucas county officials called for 10,000 additional registration cards at noon and a special courier was rushed there on an afternoon train with the blanks.

Reports from a larger number of Columbus precincts and from several cities at noon were to the effect that a very small per cent of men are claiming exemptions.

With all reports came also statements that indicated a general tribute-paying, featured in most instances by the presence of women at the polling places. In Columbus, women armed with great bundles of badges were out with the first of the men at each of the 262 precincts. As each man completed his registration, a badge bearing the inscription, "I have registered. Am ready to do my part," was pinned to the lapel of his coat with the request that it be worn daily.

Demonstrations featured the opening of voting precincts at 7 o'clock. The capital city was aroused by the ringing of church and school bells, blowing of whistles, and sounding of sirens, the noise-making lasting for 15 minutes, making the dawning of Registration Day an occasion of keen interest and enthusiastic action. Every one seemed to catch

the spirit and instead of the backward, solemn actions predicted, the capital's youths took their turn before registrars with an evident feeling of elation.

At Colonel Hubert J. Turney's registration headquarters in the state house telephone reports over a dozen special trunk lines, and wire reports over special telegraph lines poured in steadily, each one telling the story of an unusual observance of an unusual occasion in the various communities. State officials who were on duty at the break of day seemed amazed at the wholesome spirit evident on every hand.

In no instance was there indication of anti-registration demonstrations, or even utterances, so far as could be learned. The crusade against treasonable actions last week apparently served its purpose. Sincerity in following the nation's executive was indicated at practically every precinct by declarations of young men that they would register before going to their day's labor. While business was suspended in some of the cities, Governor Cox receded that part of his proclamation asking for general closing of all activities, yet fear of being late to work had no effect upon the long lines of men who awaited their turn at the election booths.

State officials hoped to have all reports in by midnight. In some instances there were jocular wagers made as to the precincts that will report last. Trumbull county and several precincts of Cleveland from the "favorites" but messages from state headquarters, following such "tips" are expected to speed up those that, in years past, have earned the reputation of being delinquents.

The total registration today in Ohio may reach 500,000. Lowest estimates were that 450,000 men within the age limits will have declared their readiness to answer the call to colors by 9 o'clock tonight.

FACTORIES CLOSE AT NOON.

(ASSOCIATED PRESS TELEGRAM)
Toledo, O., June 5.—Though most of the big factories will not close until noon nearly every one of the 255 registration booths in the city was crowded early today with young men registering for conscription.

The registration was especially heavy in the foreign settlements on the East Side where great numbers of Hungarians are employed in the iron mills.

MEN REGISTER EARLY.

(ASSOCIATED PRESS TELEGRAM)
Springfield, O., June 5.—Springfield's youths are responding nobly to the requirements of "call to colors day," and when the registration booths opened at 7 o'clock this morning there were lines of young men awaiting to have their names recorded. The work will be well advanced by noon and registration officials believed that the listing in Clark county will be near completion by the afternoon.

WOMEN WERE LATE.

(ASSOCIATED PRESS TELEGRAM)
Columbus, O., June 5.—Men of military age in this city made an early morning rush to the polls to list themselves under the conscription act. Practically all of the polls were crowded. Columbus women, who had volunteered to pin badges on men registering, were not out in large numbers when the polls opened, but expected to be present at the polls later.

SLACKERS REPORTED.

(ASSOCIATED PRESS TELEGRAM)
Canton, O., June 5.—Following the largest demonstration in the public square last night since McKinley days in 1896-8, Canton men of registration age were out early today at many booths to enroll, in spite of the heavy rain. There was no sign of disorder this forenoon, but there were repeated reports that a band of men had decided not to register.

WAITED FOR OPENING.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, O., June 5.—A heavy rain this morning did not prevent thousands of Cleveland youths from being at the registration booths at 7 a. m. Early morning registration on the West Side and in the foreign districts was especially heavy; long lines of men waiting at the polling places at the hour of opening. In nearly every precinct in the county there was keen rivalry to see who would be the first to register. Election board officials predicted that 50,000 men would register in this city—40,000 citizens and 10,000 aliens.

CHURCH BELLS RING.

(ASSOCIATED PRESS TELEGRAM)
Cincinnati, O., June 5.—The ringing of church and fire bells and the blowing of factory whistles ushered in registration day in this city and the registration booths were crowded from the very opening, despite the fact that the day was raw and rain fell constantly during the morning. One of the most inspiring sights of the morning was the marching of the First Regiment Ohio National Guard band through the streets playing the national airs.

NO DISORDER AT DAYTON.

(ASSOCIATED PRESS TELEGRAM)
Dayton, O., June 5.—Call-to-colors day in the Miami valley was being observed in Dayton and nearby towns in a quiet manner, according to reports received here during the day. There was nothing to indicate there would be any disturbances of any kind, and by noon thousands of young men had been signed at the various registration booths. City and county business was suspended for the day and the schools were closed.

REGISTERED EARLY.

(ASSOCIATED PRESS TELEGRAM)
Akron, O., June 5.—Akron young men registered early today. Long before the booths in many precincts opened scores of young men were waiting in line. It is expected that 15,000 will register in Summit county. There were no demonstrations reported in Akron this morning.

quette, to hurry to Negaunee, a nearby mining town, with 25 National Guardsmen. Reports from Negaunee to the governor said that I. W. W. agitators there were threatening to forcibly oppose registration.

BIG RUSH IN CLEVELAND.

(ASSOCIATED PRESS TELEGRAM)
Cleveland, O., June 5.—Owing to a rush of men eligible, for the draft to register this afternoon and the fact that fifty booths had exhausted their supply of registration cards, County Election Clerk Hirsatius announced that the booths would be kept open tonight after 9 o'clock and until every man in the county had an opportunity to register.

Election officials estimated that 75 per cent of those eligible for draft had registered by 2 p. m.

TOLEDO FOREIGNER ARRESTED.

(ASSOCIATED PRESS TELEGRAM)
Toledo, O., June 5.—Gordon Dimitrio, a Hungarian, was arrested by the police at noon, accused of interfering with conscription registration. Dimitrio was taken from a crowd of Hungarians and Bulgarian iron workers on the East Side. It is said he was urging them not to register.

He had an I. W. W. card and Socialist literature in his pockets. He said he came a few days ago from Spokane, Wash.

FRENCH DEMAND FREEDOM OF ALSACE AND FUTURE PEACE

(ASSOCIATED PRESS TELEGRAM)
Paris, June 5.—By a vote of 453 to 55 the chamber of deputies in secret session has adopted a resolution declaring that peace conditions must include the liberation of territories occupied by Germany, the return of Alsace-Lorraine to France, and just reparation for damage done in the invaded regions. The resolution which was accepted by the government also favors the creation of a league of nations after the maintenance of peace.

The secret session which was adjourned from Saturday, continued all yesterday afternoon and evening, until midnight. The resolution which was accepted by the government read:

"The chamber of deputies, the direct expression of the sovereignty of the French people, salutes the Russian and other allied democracies and endorses the unanimous protest which the representatives of Alsace-Lorraine, torn from France against their will, have made to the national assembly. It declares that it expects from the war imposed upon Europe by the aggression of imperialistic Germany, the return of Alsace-Lorraine to the mother country, together with liberation of invaded territories and just reparation for damage.

"Far removed from all thoughts of conquest and enslavement it expects that the efforts of the armies of the republic and her allies will secure, once Prussian militarism is destroyed, durable guarantees for peace and independence for peoples, great and small, in a league of nations such as has already been fore-shadowed.

"Confident that the government will bring this about by the co-ordinated military and diplomatic action of all the allies and rejecting all amendments, the chamber passes to the order of the day."

Speaking to the resolution, Premier Ribot said:

"The government asks you to vote for the Dumont-Klotz resolution. The long debate now drawing to an end has shown with what spirit of sincerity and patriotism this resolution affirms our national sovereignty. It declares that in a democracy like ours there can be no secret diplomacy. None can or wants to finess with the national sovereignty. None has entertained such thoughts.

"French policy is the policy of frankness and clearness. When the hour for supreme decisions strikes it will be for representatives of the country to determine the conditions of peace. We wish to bring about the triumph of the rights of the peoples and the ideas of justice and liberty.

"The resolution which the government asks you to pass demands a reparation, which none can contest, for appalling damages. The universal conscience will ratify these pretensions.

"Appealing to what has been said by the president of the great republic of the United States we wish to establish in stable fashion justice and right for all nations, guarantees for tomorrow for our children against the renaissance of barbarity. If we fall back into our old differences the danger may be great, but France united cannot be vanquished. I ask you in the name of the government, in the name of France, that your vote be unanimous."

REMOVED TO HOSPITAL.

COUNCIL DETERMINED TO PROVIDE GARBAGE DISPOSAL TO STOP KICKS

The stench from decaying garbage and night soil gathered in Newark is growing stronger. It has reached such strength finally that the city is about to act in an effort to relieve conditions which are not only obnoxious but are really a menace to the health of the city as well as a portion of Madison township.

Messrs. Seward, Alexander and Knauber, were appointed members of a special committee last night to secure some sort of an agreement which will secure proper disposal of such refuse from the city. The committee is instructed to see C. O. Harris or other persons with a view of making a contract for the disposal of garbage and night soil, and for making a contract to have the refuse handled in a sanitary manner.

This action will be taken pending the completion of plans for the installation of a garbage incinerating plant proposed at a previous meeting of council. Representatives of the firm manufacturing these plants disappointed council last night and was not present at the meeting.

Mr. Harris, who owns the present dumping ground, Health Officer Knauber, Solicitor Norpell and members of council discussed the garbage disposal matter fully. All agreed that the conditions were almost appalling. Some doubt as to the authority to enforce the health regulations was cleared up when it was agreed that Madison township trustees might make things interesting for the city if they so desired.

The city's health department's jurisdiction in the matter ends at the city limits, the bridge at Quarry Run, west of the dumping ground and all the complaint comes from conditions beyond that point. Council has authority only to make contract for a place where the refuse is to be disposed of and it may regulate its disposal but if it is beyond the city limits has not the power to enforce it.

The tentative plan suggested at last night's meeting is to make a contract with Mr. Harris or others for a place where the refuse may be dumped and to employ Mr. Harris or others to supervise the sanitary disposal of all obnoxious refuse from the city. Mr. Harris indicated that

he did not want anything more to do with the proposition other than to furnish the site. He said the city could hire whoever it pleased to supervise the disposal of the refuse.

By action taken by city council firemen at headquarters are given the opportunity for a flag raising soon. Their proposal to erect a substantial flagstaff on top of the headquarters building was approved and Clerk Woodward was delegated by council to purchase a suitable flag to be raised upon the staff. If the headquarters boys could be spared from their work long enough, they could be depended upon to put down the German autocracy in short order.

Weather was too warm last night to bring out many spectators and only a half dozen citizens were outside the rail when council was called to order.

The street committee reported that those asking for the shortening of an alley in St. Clair street were responsible for the condition and asked for further time. The committee recommended that the paving of Market street east of First be delayed until after the subway was finished.

Mayor Disbee reported the following collections for May: City cases, fines, \$66; licenses \$160; other collection, \$26; wagon fees \$51. State cases, fines \$261, mayor's fees, \$118; officers' fees, \$59.00.

Engineer Wells reported plans were drawn for the paving of Glenn street from Indiana to Robinson drive. Clerk Woodward reported the service of notices for improvements.

Twenty-six property owners on Central avenue from Hoover to Wallace street ask for the construction of sidewalks.

Will O'Bannon asked permission to build a balcony at 378-380 West Main street extending over the side walk. James Dolan of Moultrie street and Central avenue reported that a sidewalk built by the city and assessed against his property was crumbling and proposed to rebuild it and get rebate from the city.

A plot of the Rose Hill addition to the city of Newark was submitted by the Licking Land company. It

was accepted in an ordinance passed later.

An ordinance by Mr. Curry supplementing ordinance No. 1578, dealing with amusement houses, boosting carnival licenses to \$50 for each day, was passed on suspended rules.

Mr. Keyes' ordinance levying special assessment for the paving of Day avenue was passed on suspension of the rules. The same action was taken on the Curtis avenue sewer improvement. His North avenue and Vine street assessment ordinance also were passed on suspended rules.

Mr. Keyes ordinance to proceed with the paving of Neal avenue was passed on suspended rules. Mr. Beadie's ordinance to build a sewer in Florence street was passed on suspended rules.

Mr. Keyes of the finance committee offered an ordinance increasing the salaries of certain service department employees. The new salaries are: Engineer, \$125; assistant engineer, \$90; street superintendent, \$75; superintendent of water works, construction and repair, \$85; chief clerk to service director, \$85; chief electrician, \$85; all monthly; and firemen, 33 1-3 cents an hour. It was given one reading.

Mr. Keyes' resolution instructing the city engineer to draw plans for the joint (county-city) sewer along the "Holler ditch" in West Newark was adopted.

Mr. Beadie's resolution authorizing the payment of \$2 each to W. H. Johnson, Thomas Buey and Charles Osborne for appraisement in the Leedale alley controversy, was adopted. His resolution for sidewalks on German street was adopted.

Mr. Keyes resolution for a sewer in West Church street from the car barns to Sixteenth street. City Engineer Wells reported that probably 50 per cent of the cost would have to be assessed. City Auditor Dodd sounded the danger signal in the matter of bond issues, owing to war conditions and the present campaign for the Liberty Loan bonds. The motion to suspend rules was lost by a vote of 5 to 4.

A resolution to pave Glenn street was adopted on suspension of rules. Ernest King asked permission to construct a balcony over the side walk in South Fifth street in front of the garage building. The request was referred to the street committee.

In the matter of the garbage disposal chairman of the public service committee reported that he had been unable to see the garbage men interested in the matter.

TYPO. UNION PAYS DUES OF MEMBERS WHO JOIN COLORS

At a meeting of Newark Typographical Union, No. 63, held last night, arrangements were made to pay the dues of those members who have enlisted in the service of Uncle Sam, in whatever branch, or those who may enlist in the future or be drafted into the federal service.

The action of the Newark local, while not an innovation, is nevertheless just as commendable and indicates the deep patriotism of its members and their desire to "do their bit."

The Courts

Divorce Petition.

Grace Cupps has filed a petition in common pleas court against Floyd J. Cupps. The parties were married June 27, 1914, and the petition alleges that a separation took place August 29, of the same year. Plaintiff charges defendant with adultery and gross neglect of duty. She asks for a divorce and restoration to her former name, Grace Hummel.

Common Pleas Notes.

In common pleas court the court heard the evidence of the witnesses in the case of the State of Ohio ex. rel. Irvin Peters vs. Cora Peters. The suit is to determine the proper custodian of the minor child of the parties, who were divorced some time since. Plaintiff claims that defendant is not the proper person to retain the custody of the child.

In the case of Mary James vs. Curtis James, the sale of the automobile was confirmed by the court and receiver was ordered to make delivery.

In the case of Stephen H. Lashley vs. Elenora C. Lashley, a suit for divorce, the court dismissed plaintiff's petition, and ordered alimony paid by plaintiff to defendant in the sum of \$42.50 per month.

Edith Gray vs. Homer C. Gray, plaintiff granted decree of divorce, and custody of child.

Ralph C. Ringwalt vs. C. V. Priest, demurrer to petition overruled. Leave to answer in 30 days.

John A. Gutridge et al. vs. J. H. Orr et al., a suit involving the opening of a road. Finding for plaintiff.

H. Lippincott, etc., vs. E. S. Randolph et al. Demurrer sustained.

People's Market Co. vs. Geo. W. Weisant et al. Submitted to court upon demurrer.

John Elben vs. Wm. A. Ashbrook, assignee. Leave given defendant to plead in 10 days.

F. P. Gourley, guardian, vs. Ida J. Gourley. Judgment upon the demurrer to the answer, which the court heretofore sustained. A suit in partition. Sheriff ordered to pay money in his hands to the plaintiff.

Lanning vs. Mercer. Settlement reported pending.

Richer vs. Redding. For trial Monday afternoon.

Keeley vs. McCray. For trial Wednesday.

GREATEST FRIENDS OF BRITISH BLIND

Sir Arthur and Lady Pearson.

Sir Arthur and Lady Pearson are the greatest friends and workers for the relief of the war blind. Sir Pearson, although blind himself, has been the chief worker for the blind in Great Britain. He has established and is directing schools in London where the blind soldiers and sailors are taught useful trades despite their affliction.

To the Mothers of a Nation:

THERE is so much that you want to do in this war and so little time to do it. On every side you see chances to be useful—relief work, the Red Cross, gardening, and even filling the places of men who must go.

Yet every minute of your day is filled—at home. The real problem of woman's war-time service is not to find the women—it's to find the time.

But wait. The problem of finding time is not a new one. In days of peace women have discovered how to give their homes and children better care and still have hours free for other things.

They merely simplified their tasks. Electrically they did the work of home. They took short cuts. They clipped off minutes here, more minutes there. They modernized their methods—sewed, cleaned, washed and ironed, even cooked, by snapping on a switch or pressing buttons.

Today this force is waiting at your door. The power that runs your factories, makes movies move, pumps water, weaves and spins the fabrics that you wear—electricity—is waiting to lighten every burden in your home, to be your drudge, to leave your time and energies free for bigger, greater tasks ahead. Ask us now how these little things cost.

Milady's Boudoir

Misshaped red, scrawny, fat, awkward, nervous, ill colored, perspiring, chapped hands are the result of old looking hands, but often the means of destroying one's charm.

To correct any of these shortcomings one must study the hands and find out where the trouble lies. If they are prematurely aged, neglect is most likely the cause. Some claim old looking hands as an inheritance. I do not believe this. We inherit certain tendencies rather than any unchangeable physical appearance, and most likely one has inherited one's mother's tendencies to neglect one's hands.

No doubt the hands have been kept clean and nails properly attended to, but still I think, premature aging is the result of neglect. The hands are hungry. This may sound queer to some, but to illustrate: Miss a meal or two and become quite hungry, then scrutinize the face closely in the mirror and you will find that hunger has cut deep

Keep Your Hair and Scalp Clean

If you want a good healthy growth of hair, the scalp should be used in keeping the scalp clean, free of dirt, dust and dandruff. Do not use cheap soaps or shampoos that contain too much alkali as they are liable to dry the scalp and make the hair too brittle. For steady use the best thing is creamol, a liquid which you can secure at almost any drug store. It is very cheap as a four ounce bottle will be sufficient to last a family for several months.

To cleanse the hair and scalp thoroughly, simply moisten the hair with water and rub in the creamol. One or two teaspoonfuls will make a rich, creamy lather and it is very easily rinsed. The hair dries quickly and evenly and leaves it fine, bright, fluffy, and easy to care for.—Adv.

Our Boys and Girls

To properly pasturize milk put a gallon of water over the fire in a clean pan or kettle. When the water is boiling hard take the kettle from the fire and allow it to stand on the table for ten minutes uncovered. Then put in the filled and corked nursing bottles and leave them for half an hour, covering the kettle meanwhile with a blanket. At the end of half an hour remove the bottles and cool them as quickly as possible to fifty degrees and put them where they will keep cool when needed.

When it is time to feed the baby take out a bottle and set it in a pail of warm water over the fire to heat. After the baby has finished, the bottle should be emptied, rinsed and filled with cold water. At some convenient hour of the day the mother will wash all the used bottles with soap and warm water, using a bottle brush to clean the inside of them. She should then rinse them and boil them in the same pan or kettle in which they were pasturized.

Taking Him Down.
A lawyer with a liking for billiards had occasion recently to visit a small town in the west of Scotland. While there, seeking to pass the time, he found a new and excellent billiard table. Upon inquiring if there was anybody about who could play the billiard referred him to one of the natives. They played several games, but the result was against the lawyer. Try as he might, the countryman won every game.

"Mr. —," the lawyer remarked, "I've quite a reputation at home. They consider me a good billiard player, but I'm not in your class. May I inquire how long you have played?"

"Oh, for a while back," replied the native. "But, I say, I diana want to hurt yer feelin's, but you're the first fellow I ever beat!"—London Tit-Bits.

True Eloquence.
True eloquence, indeed, does not consist in speech. It cannot be brought from far. Labor and learning may toll for it, but they will toll in vain. Words and phrases may be marshaled in every way, but they cannot compress it. It must consist in the man, in the subject and in the occasion. Affected passion, intense expression, the pomp of declamation, all may inspire to it. They cannot reach it. It comes, if it comes at all, like the outbursting of a fountain from the earth or the bursting forth of volcanic fires with spontaneous, original, native force.—Webster.

BATTERY C BOYS HOMESICK; ENJOY LIFE OF SOLDIERS

The 56 boys from Newark and vicinity, members of Battery C, quartered at Camp Perry, are enjoying themselves immensely, that is those who are not homesick, according to a letter received from Ralph Moore, a Newark boy.

Ralph states that he has plenty to eat, plenty of work and plenty of outdoor exercise. It has been cold and rainy since the Newark contingent arrived at the camp. Scores of the recruits are homesick, but it does no good as they have to remain in camp and get over it. The meals are of the best and are served three times a day. Edgar Albright, a former Advocate linotype operator, thinks that he has gained about twenty pounds in the few days he has been in camp. Mr. Moore states that the boys are in the open air all of the time and grill eight hours a day in rain or shine. He has a team of black horses that came from Texas and have not been broken and it is his duty to break them and care for them. Six horses are used to a gun, with three drivers, and he is one of them.

The boys answer the first call at 5 o'clock in the morning and the first thing they do is to care for the horses before breakfast. The bugle sounds taps at 10:30 and everyone must be in bed before 11 p. m. The evening hours are devoted to study, and there are plenty of things to learn. There is plenty of music in the camp and a number of choruses have been organized. No one is allowed to go anywhere without a uniform, and no one is allowed to sell a soldier anything to drink. If a soldier is caught taking even one glass of intoxicant of any kind he is sent to the guard house.

Ralph states that he has to practice daily with a Colt's 45-calibre pistol and that he also has to learn every detail of the big 3-inch gun. The two Newark Rumanian boys are enjoying camp life and they like it very much. They are Sam Breaux and Steve Jacea. Sam sent word to his friend Pete Chima that he has been looking for the Kaiser, "but no see him yet."

Battery C boys are only a half

mile from Lake Erie and ride a horse over every afternoon. Ralph states that he likes the life and that he is getting along fine, is not homesick and never felt better. He wishes to be remembered to all his friends and especially to his brother Elks.

Mr. Charles Moore will leave for Camp Perry Saturday and expects to spend Sunday with his son. A number of other Newark people who have relatives at Camp Perry will visit them before the battery starts for a mobilization camp in the south in the course of a few weeks.

JAPT. HAGER FINDS STOLEN FORD IN EAST NEWARK

Capt. Charles Hager, member of the local police force and known as the auto sleuth, recovered the fourth stolen automobile last night. He was assisted by Patrolman Jones. The machine, a Ford, was owned by Thomas Van Sickle of Somerset, and was stolen at Buckeye Lake Park Sunday afternoon. Word was sent to this city, Columbus and Zanesville and Capt. Hager was assigned to the case. He searched the city thoroughly and last night his efforts were rewarded when he and Patrolman Jones discovered the machine in Wing street. The owner was notified and will come to Newark this afternoon to claim his property.

Every Day Etiquette

"What shall I say when a man pays my car fare when I am on my way home from work," asked Jessie.

"It is sufficient to say, 'Thank you, Mr. So and So,'" replied her mother.

"Is it proper for a man to shake hands when introduced to a woman?" was John's question.

"If the woman extends her hand he should do so. It is a woman's privilege to take the initiative in this matter," answered his father.

SENIOR PLAY IS PLEASING; CAST WAS WELL CHOSEN

The annual class play presented by the class of 1917 at the High school auditorium on Monday evening was a delightful success. The class presented the popular comedy drama, "The Man on the Box," which in play and in book had such a run a few years ago.

The caste, as selected by the class members, was an admirable one and the various roles were well assigned. The play moved smoothly, was well costumed and was most enthusiastically received by the large audience. The delineation of the characters was given with an ease and understanding that showed the result of excellent coaching and the possession of real histrionic ability. The personnel of the caste follows: Robert Worburton....Elwyn Davies Chas. Henderson....Carl Brubaker Col. Geo. Agnesley....John Ebbout Cous. Korloff....Woolson Davis Col. Frank Raleigh....Harold Hlat Monsieur Pierre....William Bliss Magistrate Watts....Frank Tafel Clerk of Courts....Geo. OVERWORKED NEWARK WOMAN COMES BACK

LOUD IN PRAISE OF PHOSPHATED IRON

She says everyone who is troubled with nervousness and all played out, should try PHOSPHATED IRON. It will quickly assist in giving renewed vitality, and nervous force, gives you the strength to do things, makes you feel like new, puts the "get up and get there" feeling in you, by feeding the blood and nerves just the amount of Iron and Phosphates that all run down and overworked systems need.

PHOSPHATED IRON is a blood and nerve remedy which acts on the principle of getting at the source of the trouble, both the Iron and the Phosphates are in a form that the system absorbs readily, you can distinctly feel the benefit you are receiving, and say it is some relief, it sure is some blood and nerve tonic, everyone that tries it is a "booster" and no wonder after the good it does them. Every one who is run down, nervous, tired and has that "all in" feeling should try Phosphated Iron, and you will never be without it again.

Special Notice. To insure your receiving the genuine Phosphated Iron, we have put up in Capsules Only. Do not allow dealers to substitute Tablets or Pills. Evans' Drug Store, Newark, Ohio, and leading druggists everywhere.—Advertisement.

HOW TO BE RID OF CHRONIC DANDRUFF

The only way to get rid of disgusting, untidy dandruff is to correct its cause. Shampooing merely cleanses the scalp for a few days, then the scales form again as thick as ever.

To destroy the dandruff germ and get rid of the dandruff for good, part the hair and apply a little of the genuine Parian Sage directly on the bare scalp and rub it in until absorbed. You will surely be amazed at the result of even one application, for your hair and scalp will look and feel 100 per cent better. Only a few days' massage with Parian Sage should be needed to destroy the germs that cause dandruff to form. The scalp becomes healthy, the hair will grow better, show more life and vitality, and you should no longer be troubled by dandruff. Faded, dull or lifeless hair is quickly restored to beauty by this simple process. Parian Sage can be obtained from W. A. Evans and druggists everywhere. It is not expensive.

"Under the Sea."
At no more fitting time could the thrilling under sea spectacle, dramatized at the bottom of the ocean from Jules Verne's celebrated novel, "Twenty Thousand Leagues Under the Sea," which opened a two-day engagement at the Auditorium theatre yesterday afternoon, be presented here. Good sized crowds filled the theatre and were thrilled and amazed by what they were shown as are very few photoplay audiences.

That which Jules Verne predicted over fifty years ago has become a horrible reality today in the present world's warfare. Just as Jules Verne predicted in his novel, "Twenty Thousand Leagues Under the Sea," which at the time of its publication was accepted as the extreme of imaginary fiction, that the submarine would become the terror of the ocean, the theatre and were thrilled and amazed by what they were shown as are very few photoplay audiences.

Probably the feature of the production which holds uppermost attention are the scenes showing Captain Nemo's terror of the deep, his submarine Nautilus, the first time the public are enabled by this production to see a submarine in actual operation, how it inhabits and crew life in the submarine, the loading and firing of its deadly torpedo which never misses its mark in sinking the enemy's ships.

BLANCHE SWEET
LASKY-PARAMOUNT

Paramount Star Who Makes Her Bow to Auditorium Audiences Tomorrow
With Thomas Meighan, in "The Silent Partner."

posals of marriage, Wilson, revengeful plans with David Pierce to effect Royle's financial ruin.

Jane has saved nearly \$10,000 with which to purchase a home. She is daily becoming of more value to her employer, and discovering that the stock in which he is interested is going down and unable to reach Royle, forces his signature to a check and buys "Consolidated." Wilson learns that Jane has pulled Royle out of the hole and works through Edith to obtain her discharge. Royle quickly finds out how little he really knows of his own business and puts Jane back to work. Believing Jane out of the way, Wilson and Pierce are confident they can "clean" Royle and make a fortune for themselves.

Jane learns it will take \$10,000 more to make Royle safe, and buys the stock with her own money.

Edith has refused to help Royle, forbidding him to touch her. She leaves Royle and goes to Wilson's apartment, leaving a note for her husband. The latter learns from the chauffeur where she has gone and follows. Fearing trouble, Jane also goes to Wilson's apartment and hides Edith as Royle rushes in. He accuses her of also being under Wilson's spell and reveals the fact that he is married. Edith leaves him to go to her husband, who repudiates her. Wilson also states he wants nothing more to do with her. At the office Jane shows Royle a news item about a big foreign order which revives the stock, but he believes it has come too late. As Jane goes to his law office, she saved him, he tells her that she is no longer a silent partner, but a full partner, and the love which has never before been expressed lights up both their faces.

Gay Fisher and his clever orchestra will be heard in a specially arranged musical program, the organ in the hands of Prof. Frank Reynolds adding considerably to the program.

Sealed proposals will be received at the office of the County Commissioners of Licking County, Ohio, until 12 o'clock noon of

Wednesday, June 13, 1917, and the same will be publicly opened at 1 P. M. of the same day, for all the labor and material necessary for the construction and completion of the following road improvement.

Road No. 128, in Newark township, Licking county, Ohio, beginning at the West Main street corporation line and running westerly along said road No. 128 for a distance of one mile.

Bids will be received for a brick pavement, sheet asphalt pavement, bituminous concrete pavement, and bituminous macadam, according to the plans, profiles and specifications.

Estimates on proposed work are as follows:

Brick pavement \$5,010.37
Sheet asphalt \$1,956.89
Bituminous concrete \$2,982.33
Bituminous macadam \$0,214.81

The plans, profile and estimates for doing the work comprised in the above are on file in the office of the County Surveyor, for inspection by all persons interested in the work.

All proposals shall be made on standard blanks furnished by the County Surveyor, and shall be addressed to the County Commissioners. Each bid shall be accompanied by a certified check for \$50.00 payable to the Auditor of Licking county, or cash, as a guarantee that if the bid is accepted the contract

will be entered into and the performance thereof properly secured within five days after notice of acceptance of bid. If certified check is tendered, it must be U. S. legal tender. The work shall be commenced immediately after the signing of the contract and shall be fully completed on or before NOVEMBER 1st, 1917.

No proposal will be considered unless it complies with all the rules and regulations here given and the rules written or printed on the standard bidding blanks.

All bidders are warned to carefully read and comply with the same.

The board of commissioners reserves the right to reject any or all bids.

By order of the County Commissioners,
J. W. Hursey,
County Auditor.

J. C. Swartz,
County Surveyor.

Sells Books to Tramps.

In one scene of his new photoplay for
William Fox, "The Book Agent," George
Walsh, who plays the part of the book
agent, runs into a camp of hoboes.

Being of an affable nature, George
sits on the ground and has lunch with
them. Then, before he leaves, he tries
to sell them some books.

That, naturally, starts a little royal,
which George wins. But he does so
only after selling each and every one

5,000,000 CORNS LIFTED RIGHT OFF

Try 2 Drops of Magic "Gels-It."

There's a wonderful difference between getting rid of a corn now and the way they used to try to get rid of it only four or five years ago. "Gels-It" has revolutionized corn history. It's the only corn remedy today that acts

"Just 2 Drops of 'Gels-It.' Now Corns are Lifting Off—And It's Gone!"

On the new principle, not only of shriveling up the corn, but of lessening the corn off—so loose that you can lift it right off with your fingers. Put 2 drops of "Gels-It" on that corn or callus tonight. That's all. The corn is doomed sure as sunrise. No pain, no trouble, or soreness. You do away once and for all with toe-bundling bandages, toe-eating salves and irresponsible what-nots. Try it—get surprised and lose a corn.

"Gels-It" is sold everywhere, 25c a bottle, or sent on receipt of price by Lawrence & Co., Chicago, Ill.

Sold in Newark and recommended as the world's best corn remedy by T. J. Evans and W. A. Erman.

GETS NEW GRIP ON HIS BUSINESS

Newark Pharmacist Thanks
Tanic for New Energy.

"I go down to the store with that 'sell the goods' feeling since taking Tanic," said J. L. Benner, pharmacist at W. A. Erman's drug store, Newark. Mr. Benner has handled drugs and medicines for a long time and he knows what he is talking about when he says Tanic is a wonderful tonic.

"Before I took Tanic my stomach troubled me all the time," he continued. "I didn't care much for food of any kind and when I did eat gas formed on my stomach, and a bad taste came up in my mouth. I was also bothered with bloating and belching."

"My nerves were edgy and I did not sleep well. I got up feeling tired and often had headaches. I had dizzy spells and sometimes when I stooped over and then raised up quickly I had a swimming feeling in my head."

"After taking one bottle of Tanic my appetite came back and I was able to eat a good meal without feeling bloated or distressed afterwards. I am not troubled with gas on my stomach any more and I don't have that bad taste in my mouth. I get a good night's sleep now and get up feeling well rested and refreshed. I don't get tired so easily and I don't have those dizzy spells. Tanic is the best system builder I ever took."

Tanic is a purely vegetable tonic and is especially designed to build up run down people.

Tanic may be obtained in Newark at Erman's Arcade drug store; in Hoboken at Hebron Drug Co.; in Paterson at C. M. Gilmore's; in Paterson at J. R. Strine's; in Greenville at W. P. Ullman's.

At all times we strive to excel. Our equipment is above reproach and we are trained in the latest methods of our profession. We are experienced and careful.

C. OF C. "BUCKEYE" FAMED ON COAST; COPIES REQUESTED

The Newark Buckeye, the official bulletin of the Chamber of Commerce, is proving a valuable factor in advertising Newark's advantages to the world. Recently 10,000 copies of the May Buckeye were distributed all over Ohio, containing a summary of Newark's advantages from a civic, commercial and industrial standpoint. It was styled the United Commercial Travelers Number.

Under date of May 31, F. W. Graham, Industrial and Immigration Agent of the Great Northern Railway Company at Seattle, Washington, writes as follows:

"Will you kindly mail me a copy of your Newark Buckeye? At our industrial committee meeting of the Seattle Chamber of Commerce, today, and extract was read from your Buckeye and I had a glance at it and saw so many good things in it that I would much like to have a copy."

Mr. Graham was sent all of the copies of the Buckeye since it has been published and additional Newark literature.

"SAVED" A QUARTER.

Warren T. Suter, cashier of the Franklin National bank, lost his celluloid Red Cross button and stopped at Fuchs Brothers' store where he bought a neat gold mounted button which attracted the attention of a little chap who called at the bank this morning.

"Where'd you get that nice little Red Cross button, Mr. Suter?" inquired the lad.

"At Fuchs Brothers."

"How much did you pay for it?"

"Twenty-five cents."

"Huh! Saved a quarter, didn't you?"

"Yes."

A CALL TO THE COLORS

When that young man leaves for the training camp don't fail to have him supplied with a dependable fountain pen and a pocket Bible. He will need and should have both. Get them at Edmiston's Book Store. They have a great big stock to select from and the price is right. They are selling a good self-filling fountain pen for one dollar and a pocket Bible for from 40 cents up. d-11

WEST NEEDS 20,000 MEN TO HANDLE BIG CROPS

Postmaster Frank T. Mercer has received a bulletin from A. L. Burkman, director of employment representing the United States Department of Labor, with offices at 804 Grand avenue, Kansas City, stating that 15,000 men are needed in Kansas and 5,000 in Oklahoma, to help take care of the crops. That \$2 per day and up, with board and lodging will be paid in Kansas and \$2 to \$6 per day and board and lodging in Oklahoma, depending upon the experience of the men in that line of work. Application should be made to Mr. Burkman by those wanting work in those states.

OVERHEATED

Have you ever tried to bake a cake or a few loaves of bread, and find the oven over or under heated at the very time you wanted it to be just right? We know the nerve-racking time you ladies of the house have over these matters, so we have set about to find a coal that you could depend upon. We have that coal and there is no need of worry if you will ask that the next lot of coal comes from the Dixie Coal Co.'s yards. Phone 7099 auto and let us help you. d-11

SAFE INVESTMENT.

Have you ever thought why it was that bonds especially municipal bonds are so safe? It is because the city property of every kind is pledged for the prompt payment of the bonds. Municipal bonds as a usual thing do not pay as high rate of interest but that is one of the reasons why they are so safe. There is not a chance taken when you buy them. The Security Bond Co., Mr. D. H. Pigg, representative will be pleased to talk over the purchase of bonds. They handle only the best of Municipal Bonds. See Mr. Pigg in their rooms, 703 Trust building. d-11

DR. M'CUAIG PLEADS FOR LITTLE GIRLS; LECTURES POPULAR

The large audience that greeted Dr. McCuaig last night is evidence of the interest that this magnetic speaker has created in his addresses among the people of Newark. He urged the attendance of the women of the city at the afternoon meetings, and called their attention to the fact that the lectures are much more valuable if heard in the series. While these afternoon lectures are primarily for women, an invitation is extended to all ministers, doctors, male teachers and professional men to be present.

Tonight at 7:30 o'clock in the Central Church of Christ, Dr. McCuaig will deliver his celebrated lecture on "The Causes of Crime." This lecture is said to be one of the most logical and conclusive deliverances on the subject of criminology ever given public utterance.

The subject of the afternoon lecture for women at 2:30 o'clock tomorrow will be "The Care of the Girl." The course of which Dr. McCuaig will discuss dancing, theater-going, dress, chance acquaintanceships and other matters involving problems in the life of the developing girl. An invitation has been extended to all girls of high school age to be present for this lecture.

Introductory to his lecture last night, Dr. McCuaig declared that the most significant abuses of the day are abuses arising out of ignorance of the sex relationship and commonly known as "social evil."

"Before the picture of any single phase of social evil all right-minded people stand aghast. As I speak to you tonight there comes to me a vision of the 500,000 lost women of this country. Lost, indeed, they are, because they are outside of hope as much as though already thrust into the coffin beneath the ground. For these no plea avails. But as the fullness of the vision comes I do make a plea for the 500,000 little girls, some of them just learning to walk tonight, many of them going out these mornings with their school bags on their shoulders and bright smiles upon their faces—blue-eyed little girls, golden-haired little girls, auburn-haired, black-haired little girls, from homes all over this great land who, unless something is done by you, will within the next ten years go down to fill the places of the 500,000 lost ones of today who will have passed on to the grave. I stand between these mighty hosts. I stand tonight between the ranks of those already lost and the oncoming ranks of innocents beseeching for your children."

WHAT BILLY SUNDAY SAYS.

In one of his meetings at Boston the noted evangelist said: "I believe that every disease can be cured by some weed if we can only discover it. There is not an ailment that God hasn't somewhere an herb growing that will cure that ailment."

The choice medicinal herbs which will cure women's ailments were discovered more than forty years ago, and have been doing their beneficent work for half a century. Lydia E. Pinkham combined them in convenient form in her famous Vegetable Compound, which is to be found in the drug stores where every ailing woman may conveniently get it at small cost. It does the work! NEW HAIR REMOVER WORKS LIKE MAGIC

(Positively Removes Roots and All)

No discovery of greater benefit to hair-damaged women and boys has been made in recent years than the marvelous phenelene method. It is entirely unlike and much superior to electric, depilatory or other methods, because it actually removes the hair entire, roots and all—before your very eyes—easily, instantly, harmlessly. Get a stick of phenelene, follow the simple directions, and you will be astonished and delighted with the result. It refines your skin, money without question. It is odorless, non-irritating, and so harmless a child could safely eat it. It leaves the skin so soft, smooth, hairless, that not the least sign of your former trouble remains. Adv

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble, Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach accompanying that full bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bisulphated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bisulphated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion. 6-5-1

Flags for Registered Rotarians.
 When the Rotarians sat down to
 lunch at the Masonic Temple today it
 was noticed that six of the number
 were Licking County Registration
 badges being Messrs. R. B. White,
 Malcolm Baker, Max H. Mueller, Dr.
 Louis Mitchell, Ernest Sims and Karl
 Reinhold. President Jones sent a
 committee to buy a handsome silk
 American flag for each of the six
 men and at the roll call each man
 was presented with the United States
 flag. Secretary-treasurer Davis re-
 ported that the report on last week's
 exposition would be made within a
 few days as soon as all of the bills
 are paid and the collections made.

DEMAND IS HEAVY FOR BADGES TODAY

The registration in Licking county
 is exceeding expectations. It was
 estimated that 2,500 would be reg-
 istered in this county but to be on
 the safe side 3,500 registration
 badges were ordered. Utica, Hebron,
 Johnstown, Alexandria and other
 towns are sending for more buttons
 this afternoon, saying that the regis-
 tration is far greater than was ex-
 pected and a similar condition pre-
 vails in Newark. In order that all
 who register today may have a badge
 the Advocate is ordering another
 thousand and they will be issued up-
 on arrival to those applying to this
 office and presenting their registra-
 tion card. It is probable the but-
 tons will arrive on Thursday. The
 bronze engraved badges will be
 issued later to those in the service.

WAR DEPT. ALLOWS DRAFT ELIGIBLES TO JOIN MILITIA

Men between the ages of 21 and
 31 who registered today may still
 enlist after registering for conscrip-
 tion, according to word received to-
 day by Lieut. Koepfel of Company B,
 Fourth Ohio Infantry. Adjutant
 General Wood has been seeing per-
 mission from the war department to
 continue the enlistment so that the
 full quota of the O. N. G. could be
 secured and that permission has been
 granted.

As soon as a man is accepted after
 enlistment, his name will be taken
 off the list of those eligible for con-
 scription so that the young men who
 have registered are urged to enlist
 in order that the units of the O. N.
 G. may be filled and they can still
 select their own company and the
 department of the army in which
 they prefer to serve.

Dr. Frank D. Postle of Columbus
 is spending the entire day in the city
 making examinations of recruits and
 at noon eight had been accepted.
 Those accepted are: Henry C. Thorp,
 83 Clinton street; Frank E. M.
 Temple, 55 1-2 South Fifth street;
 Burl W. Maberger, Leroy street; L. A.
 Amore, Alexandria; Boyd Neff, 215
 Woods avenue; Charles E. Oeder, 406
 Garfield avenue; Charles W. Run-
 nels, Johnstown.

Eight other applicants are being
 examined this afternoon. They are:
 Jessie F. Bonham, R. D. No. 5; Hor-
 mer Hottinger, R. D. No. 5; Frank
 Bader, Newark; Everett Sniff, New-
 ark; Hayes D. Graham, Granville;
 William E. Thurman, Alexandria;
 Basil H. Feaster, R. D. No. 2; An-
 drew M. Frey, 173 Grant street.

PRESS CENSORSHIP FINALLY STRICKEN FROM SPY MEASURE

Washington, June 5.—Striking out
 the newspaper censorship clause re-
 jected by the House the conferees
 on the espionage bill yesterday
 reached a final complete agreement.
 Their report, with a slight change in
 another section of the measure, will
 be presented to the House Wednes-
 day. Adoption by both Senate and
 House is expected with little debate.
 Besides eliminating the censorship
 provision the only change made by
 the conferees was to make the sec-
 tion punishing interference with for-
 eign commerce operative in peace as
 well as war.

The conferees' action is accepted
 as ending the administration's ef-
 forts for press censorship for the
 time being, but a new and separate
 censorship drafting after consulta-
 tion with publishers may be present-
 ed later.

LICKING COUNTY TO HAVE MORE THAN ONE DRAFT BOARD

(ASSOCIATED PRESS TELEGRAM)
 Columbus, O., June 5.—Instead of
 having only one draft board to make
 exemptions, Judge Advocate Hubert
 J. Turney of the Ohio National
 Guard, announced this afternoon
 that all the larger counties in Ohio
 —counties with a population of 45-
 000 men of military age, or more—
 are to be subdivided into from two
 to twenty districts with a draft
 board for each district.

NO OPPOSITION TO CONSCRIPTION DEVELOPS HERE

(Continued from Page 1.)
 A nicely framed picture of the
 father of his country, George Wash-
 ington and his wife, Martha Wash-
 ington, decorated the window of the
 booth and flags were also suspended
 above the door.

In Precinct A of the First ward,
 the registrars in the East Main
 street fire department had registered
 60 out of a list of 80 eligibles from
 the last registration. They also re-
 ceived 18 by mail—making a total
 of 71.

In precinct B of the Sixth ward,
 a booth erected in Hudson avenue near
 Leroy street was filled with young
 men during the early morning hours
 and 60 had registered by 1:30
 o'clock this afternoon, one of whom
 was colored.

The booth in precinct D of the
 Sixth ward was filled this afternoon,
 fifteen young men being in line
 awaiting their turn and a number
 awaiting on the outside. The booth
 was located at the corner of Oak
 and Clark streets just opposite the
 American Bottle company's plant,
 and at 2 o'clock this afternoon 75
 had registered of whom 25 were for-
 eigners. Pete Chima was in the
 booth acting as interpreter and the
 registrars were being kept busy every
 minute.

In the booth of precinct C of the
 Fifth in Central avenue 38 had reg-
 istered, two colored. There were 50
 names on the list furnished the reg-
 istrars as being eligible.

In precinct B of the Third ward,
 the registrars were located in the
 High school building. They regis-
 tered 50 before 2 o'clock, 12 of
 whom were foreigners, several nat-
 uralized and several declarants.

In precinct C of the Second ward,
 the Central Fire department head-
 quarters was used for the registering
 office and 55 names were on the
 books at 1:45 this afternoon. The
 list of eligibles sent them num-
 bered 44.

At Granville 130 had registered
 before noon and it was expected that
 the full number of eligibles would
 be in before six o'clock this evening.

In precinct A,
 where the foreign element is num-
 erous, registrars were handicapped
 by their inability to understand the
 language of the aliens. As a result
 the registration was slow and elec-
 tion board officials went to the pre-
 cinct to help out. It may be neces-
 sary to call upon volunteers to help
 out in the listing of these foreigners
 as there has been a long line waiting
 most of the day.

In another precinct registrars told
 foreigners who called to register
 that they could not be enrolled un-
 less they were naturalized, a direct
 violation of the intent of the con-
 scription act and contrary to speci-
 fic instructions given the registrars.
 Dozens of the foreigners visited the
 court house and explained their di-
 lemma. They were instructed to
 return to their precinct and in the
 meantime the registrars were order-
 ed to register all within the 21-30
 age limit.

REGISTRATION AT UTICA.
 Utica, O., June 5.—At 11 o'clock
 this morning 130 men registered
 here. It is believed that no less than
 60 to 75 more will register before 9
 o'clock tonight.

IN MONROE TOWNSHIP.
 Johnstown, June 5.—Postmaster
 Duckworth reports that the registra-
 tion in Johnstown and Monroe town-
 ship will reach 100. Estimates

What Would Summer Be Without Pretty White Skirts?

And this season, above all, stylish white skirts and attractive shirt waists will be very popular, for every occasion. Then the models are stunning, large fancy pockets, odd shaped belts, and large buttons forming the trimmings. In our big stock of wash skirts will be found the well known line of PRE-SHRUNK SKIRTS, made by the Wooltex people. They are Wooltex shrunk and Wooltex tailored and every little detail is carefully handled. WE SUGGEST that you come and get your pick early, before the range of sizes and cloths is reduced.

HON. B. F. McDONALD WHO IS NOW IN BIG CHAUTAUQUA CIRCUIT GIVES HIS IMPRESSIONS OF SOUTH

(Special to The Advocate)

Chattanooga, Tenn., June 4.—I will endeavor to fulfill my promise to write you of my experiences upon this Chautauqua circuit, which is the largest in existence. Beginning at Jacksonville, Fla., on the 14th day of April, we have already traveled over 4,000 miles, speaking in all the larger cities of Georgia, Alabama, North and South Carolina, and some in Florida, Old Virginia, and eastern Tennessee. We spend the next five weeks practically in Tennessee and Kentucky, crossing the Ohio river to Bedford, Ind., on July 10th, and thence north through eastern Indiana, and reaching Michigan after about ten days and after spending the latter part of July and the first of August in that state we return to Indiana and Illinois, and close the first days of September with three Chautauquas in the city of Chicago.

Today we are here in the city of Chattanooga, where I spoke at 3 p. m. I have just returned from Look-

B. F. McDONALD.

out Mountain. It was my pleasure to visit this mountain 23 years ago and the impression I then formed of its beauty and the surrounding picturesque scenery has been lasting. To me the scenery to be viewed from this wonderful elevation is sublime, especially is it so when you blend the natural with the historic interest. Of course the city of Chattanooga has been having a wonderful growth, and taken in connection with the many suburban villages like St. Elmo, (the scene of the historic novel), which are practically now a part of the city, it would seem to one standing on the top of Lookout Mountain that it is one solid city from the mountain to Missionary Ridge from the point where Hooker's army was stationed at the foot of the mountain to where Sherman's army was stationed north of the city. There is now a beautiful driveway along the crest of Missionary Ridge south to Chickamauga and Ft. Oglethorpe where now there are over 4,000 soldiers in training and before leaving here I expect to take a ride over this road.

I have upon this trip had excellent opportunity to study at this distant period in time the problems involved in our great Civil War, and the resultant effects thereof. I have spoken in Charleston, S. C., which was the cradle of secession; Columbia, S. C., where the articles of secession were adopted; in Charlotte, N. C., the last capital of the Confederacy, and Montgomery, the first capital.

The Daughters of the Confederacy have placed iron tablet inscriptions upon all buildings of historic interest commemorating the historic event. In Charlotte, N. C., the old building is still standing in which Jeff Davis and his cabinet had their last meeting, and from which authority was issued to General Johnston to surrender. A few feet distant from this building on the street corner placed in the sidewalk is an iron plate marking the spot where Jeff Davis stood when he learned of the death of Lincoln.

Another very interesting bit of history is connected with this city. All those familiar with the American history will recall that it was in Charlotte, N. C., that in 1775 a bunch of farmers of this county of Mecklenburg met and passed what is known in American history as the Mecklenburg resolution declaring their independence of Great Britain and from this the agitation grew until independence was declared at Philadelphia in 1776.

On the front steps at the capital at Montgomery, Ala., is another iron plate marking the spot where Jeff Davis stood while taking the oath of office as president of the Confederacy. At Columbia, S. C., I was escorted to the capital building and shown where the shots fired by Sherman's army had chipped off the corners of the capital building; was also taken to the old Baptist church where the articles of secession were adopted. Sherman burned the Methodist church, it is said, under mistaken notion that it was the church where the convention of secessionists was held.

When I saw the "Birth of a Nation" in Chicago some two years ago and saw the negroes controlling all matters of legislation dominating over the white race, I did not appreciate how truly historic it was until I raved upon those legislative halls in Columbia and the scenes of that memorable legislature vividly described by one who was an eye-

witness to it all. I listened to the story as told and viewed those interesting scenes in silence. I made no comment but I say to you that upon that particular point in our nation's history I find nothing of which to be proud.

All the cities of the south are extremely decorated with the national colors, the national anthems are being sung and played with enthusiasm at the chautauquas, picture shows and all public meetings. In every city every day the streets are crowded with soldiers, and especially is this true of Chattanooga. In no way, however, is the south proving her loyalty and devotion to the national cause more enthusiastically than in her response to the national appeal for greater intensity of farming, for an increased acreage, and increased production of food supplies. It seems to me that all the available land in sight is under cultivation. I used to think what a blessing it would be if there could be an absolute segregation of the white and black races. If the colored race could all be sent back to Liberia or some other destination, but since I have witnessed the absolute dependence of the white people of the south upon the colored people to perform the menial service and have observed, too, the colored man's especial powers of endurance under the intense heat rays of this southern country I have changed my mind. I believe the colored man is an absolute essential to the happiness and welfare of the southern white man.

I saw in a paper the other day where 500 negroes, starving and destitute in Cincinnati, were ordered on to the train with direction to keep on going until they landed back in their southern homes.

I somehow imagine the southern white people must smile at such news items for two reasons. First, because they realize the people of the north as a whole do not want the negroes, and second, because the people of the south need them and therefore do want them. The facts are that efforts are now being made by the southern white man to prevent the exodus of the negro.

Another fact which has impressed me especially is the immense amount of original forest in the south. In these old original states, I did not expect to see so much uncleared land. Great tall, beautiful pine trees cover the level lands, the hills and the mountains to greet our vision daily. I am very much convinced that the south today is offering opportunities for the investment second to no other section of our country. Every city of the south almost has its cotton mill and some have several, and as I have heard many speak of the immense wealth in this industry, I have decided that cotton mill president is a synonym for millionaire. It has been my pleasure to be shown through some of these great mills, following the cotton in its original condition until it comes out in its finished state of muslin or other fabrics. At Durham, N. C., and Winston-Salem, we had the privilege of going through the great tobacco factories where the respective products Bull-Durham, Duke's Mixture and Prince Albert tobaccos are manufactured.

These are great cities in the heart of the great tobacco-producing centers of the world, and their property to a great extent rests upon this industry. Even as you walk along the streets of the city of Durham a very striking tobacco odor constantly fills the air. One of the ladies on this circuit, after registering at the best hotel in the city and was shown to her room, promptly went to the clerk and objected to her room on the ground that the preceding occupant had left the room filled with the odor of tobacco, and she was transferred to another room. But she found it in the same fragrant condition, and then she observed the hallway and even the streets of the city were filled with the same odor.

Some idea of the extent of this line of business may be comprehended when I say at Winston-Salem every evening a train of at least 35 cars loaded with Prince Albert tobacco leaves with full freight-of-way for New York City, the distribution point.

A few months ago a new postoffice building was erected at Winston-Salem at a cost of \$250,000, and the proceeds from the sale of revenue stamps the first week after its completion paid for the building. They say the revenue from this city alone averages \$50,000 each day.

From my limited observation I feel the scheme of the South are not to the standard maintained generally throughout the north. However, I have been impressed with the fact in almost every city there is a college or some school of special instruction. At Rome, Ga., there is what is known as the Berry School which to me was somewhat unique and interesting. A little woman by the name of Martha Berry, a woman now about 50 years of age, born and reared upon a farm at the edge of that city, a country school teacher, several years ago, observing the absolute poverty of many of the mountain boys, their lack of opportunity for education, organized a little school in a little cabin and with her horse and buggy would personally gather up the boys and without charge or any compensation whatever conducted a school of practical education throughout the week and a religious service on Sunday.

Under the direction of this energetic woman, who inherited a comfortable little fortune from her father, this school has grown. Miss Berry giving her old home farm as the site for the school and absolutely donating her time and energies in behalf of this school and from donations made by others whom she has interested in the work until there is a farm of 5,000 acres cov-

ered with buildings, dormitories, educational halls, barns for housing the dairy cattle and horses and mules for use upon the farm and a student body matriculating over 400 now are in attendance.

It is a school of practical education, and as I was taken out to this school, ate supper with these boys in that great dining hall where we had had since leaving home the great portion of the food grown and produced on the grounds by these boys and looked upon that army of boys who had thus been practically rescued from the wilds of the moonshine mountaineers through the opportunities offered by this institution. I was once more reminded of the great things a little woman almost alone handed can accomplish when once determined so to do.

I never saw a student body so absolutely devoted to their school as here. Their motto which appears over the great archway to the beautiful grounds is "Every body works at Berry's." Within the past five years a girls department has been added which has already assumed a great part of the school's work. Mrs. Woodrow Wilson, No. 1, is buried at Rome, in passing by upon the street. At Augusta, Ga., at the close of my lecture in the afternoon I was met by Rev. Joseph R. Sevier, pastor of the First Presbyterian church, the church of which the father of Pres.

Wilson was pastor from the time Woodrow was three years old until he was seventeen. He took me to the parsonage and showed me many things of interest in the boyhood life of the President and as were pointed out to the Rev. Sevier by the President himself, while there a year or so ago.

Many other interesting experiences occur to my mind as I think back over by travels of the last seven weeks, but I think in all probability you are tired of reading this jumble by this time and will close. By the way I see from the Advocate that L. C. Russell and A. A. Stasel appeared before the Auditorium trustees in opposition to the Burlesque shows. Certainly strange things do happen when a fellow is away from home.

I sincerely hope all goes well in Newark. Very truly,

B. F. McDONALD.
